

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

February 16, 2000 LB 1436

very good suggestion and so the committee added that individual. And then, much to my embarrassment really, I had not thought of putting teens on the committee that do the final judging. The suggestion was made and I also supported that, so we add four teens, one from each size school district, onto the committee. We eliminate the sunset because we require a review and allow statewide...the statewide implementation of the projects and reduce the amount transferred to the fund and clarify the transfers. One criticism had been that we did not have an evaluation piece in the bill, and so we also added an evaluation piece. We...the language limiting applications to years through 2002, and the language limiting the selection of winners to years through 2003 is eliminated and that is because there will be a review and evaluation in place of that. A requirement is added for the department to conduct a review of the project before December 31, 2003, which will be submitted to the Governor and Legislature with any recommendations. The geographic implementation areas are expanded to include an option for a statewide implementation area. And clarification is added that the selection of winners is regulated by both the bill and rules and regulation adopted to implement the bill. It allows the department to adopt more comprehensive rules and regulations to implement the program, and the oversight and administration of the sponsorship awards is transferred from the Coordinating Commission to the department. What we have tried to do is when I've heard from some individuals any of their concerns, we've tried to respond and make...and be flexible in working with people. I'll be interested in hearing from any concerns from any of you. I know that the Health Committee will have concerns about using the interest money from the Tobacco Settlement Fund. But I'll tell you I believe those are state funds, and I...I believe that each one of us represents approximately 32,000 people. And I think it is absolutely appropriate that we, and I hope a majority of us can pass legislation that has a statewide implications with the state funds. These are state funds. And I know that the council that has been created will have a large amount of work before them, a great deal that they're going to have to dedicate themselves to. I just see this as one vehicle of something we can put our stamp on as a Legislature and say that we come out of this session with something that absolutely is targeted to help prevent teen tobacco smoking. And with that, Mr. President, members, I'll be
